

Newsletter

EDITOR'S NOTE

Greetings,

We are delighted to present to you the latest issue of our Skills Framework Newsletter for July 2023. Within these pages, we will explore the progression and improvement of the Industrial Skills Framework, which promotes continuous learning and emphasises the significance of staying relevant in today's fast-evolving job market.

As technology continues to progress, and novel industries emerge, the acquisition of new skills and knowledge has never been more crucial to keep pace with the latest trends and advancements.

Additionally, we will showcase sought-after skills across various industries and offer valuable resources within our industrial skills framework to help you attain these proficiencies. Whether you aim to advance your career or stay informed about the latest industry trends, this edition caters to all.

We hope you find this newsletter engaging and insightful, and we eagerly anticipate providing you with more valuable knowledge and resources in the future.

IndSF Drone Technology

We are thrilled to announce a collaborative initiative with two esteemed partners, the Malaysia Aerospace Industry Association (MAIA) and the Malaysian Research Accelerator for Technology & Innovation (MRANTI), to embark on an ambitious project. Together, they will be dedicating their expertise and resources to develop an Industrial Skills Framework document exclusively focused on Drone Technology. This endeavour aims to establish a comprehensive skills document in the Drone Technology focus area, fostering innovation, and bolstering Malaysia's position as a frontrunner in the exciting world of unmanned aerial vehicles. Stay tuned for more updates on this groundbreaking collaboration!

IndSF Development

IndSF Agriculture (Non-Perennial Crops)

July brought a significant stride for IndSF Agriculture - Non-Perennial Crops (Pineapple). On July 13th, we held the second workshop for the IndSF Agriculture (Non-Perennial Crops - Pineapple) document. Eleven Subject Matter Experts (SMEs) joined our development, contributing vital insights. Five SMEs dedicated their time, to enriching our framework. Your commitment to excellence is truly commendable. Your contributions shape the IndSF Agriculture (Non-Perennial Crops - Pineapple). As we move forward, we're excited about our progress and the robust framework taking shape. Stay tuned for more updates and upcoming workshops. Your involvement is pivotal in shaping the future of our industry.

IndSF Telecommunications

July marked significant strides in the development of the IndSF Telecommunications Document. Two SME Briefing Sessions were conducted on the 12th and 14th of July, which laid a solid foundation for our development. With twenty committed SMEs appointed, the framework gains depth and breadth, thanks to their expertise. The success of our inaugural workshop on July 31st, attended by fifteen SMEs and four collaborators, showcased the collaborative power in refining the document's content. This teamwork sets the stage for future successes, reinforcing our commitment to industry growth through collaboration. Our gratitude goes to all contributors in developing the IndSF Telecommunications document. Stay tuned for updates on the development of the IndSF Telecommunications document and upcoming workshops.

IndSF Enhancement

IndSF Digital Technology

July has been an eventful month as our dedicated team successfully conducted the second workshop for the development of IndSF Digital Technology for Data Science on August 14th, 2023. The session saw active participation from three SMEs and one collaborator, reflecting the shared commitment to refining our framework. Additionally, we are excited to announce our upcoming plans for the second workshop, focusing on IndSF Digital Technology for Cybersecurity, scheduled for August 2023. These collaborative efforts propel us forward in shaping effective digital skill frameworks.

IndSF Hospitality

We are thrilled to share our progress in refining the IndSF Hospitality document. The Secretariat has been diligently working to integrate valuable input from our SMEs following the first workshop, a testament to our commitment to excellence. As we gear up for the second workshop scheduled for the month of August, we anticipate even deeper insights and more refined outcomes. Your continued participation ensures that the IndSF Hospitality document truly represents the best practices and innovation in the field.

IndSF Apparel & Footwear Manufacturing

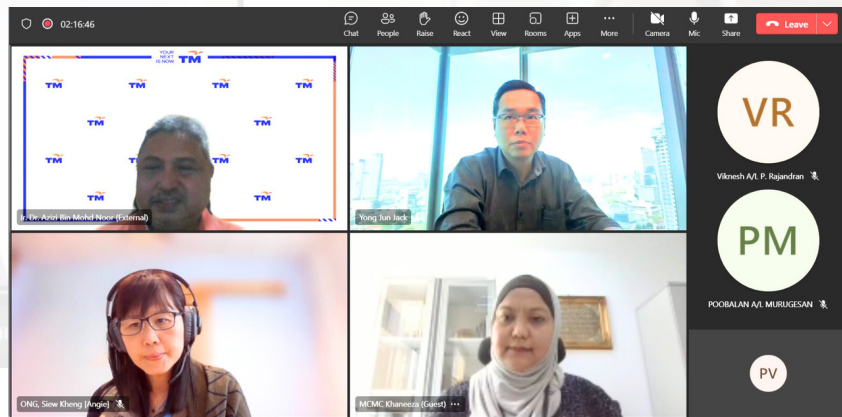

We are thrilled to announce the successful completion of the second workshop held on July 31st, 2023, via MS Teams, dedicated to the development of the IndSF Apparel and Footwear Manufacturing document. With the active participation of 11 SMEs and representatives from collaborators MKMA, MTMA, and MFMA. The engagement, insights, and expertise shared during the workshop have set the tone for a dynamic document, and we are excited to reveal that the third workshop is scheduled for August 2023. Stay tuned as we continue enhancing the future of the apparel and footwear manufacturing landscape through this development.

Sectorial Training Committee

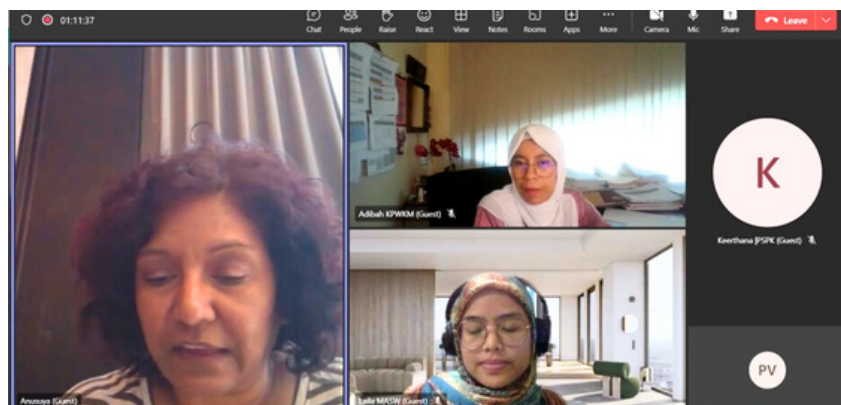

STC Telecommunications 3rd Meeting

In the dynamic realm of telecommunications, the third STC Telecommunications meeting held on July 10th, 2023, proved to be a pivotal event. This gathering brought together dedicated STC Telecommunications members, united by their shared passion for industry advancement. The meeting centred around crucial discussions that are shaping the industry's future. Among the key focal points were comprehensive Technology Assessments for the respective sector, the identification of skills poised to play a pivotal role due to ongoing industry revolutions, and the strategic development of courses tailored to the industry's evolving needs. This collective effort underscores the commitment to staying at the forefront of change, driving innovation, and fostering a highly skilled workforce.

Discussion with STC Community Development Members

A significant discussion unfolded on July 20th, 2032, as STC Community Development members converged to review the community skills framework document. This gathering, driven by a shared commitment to empowering communities, marked a key step in ensuring the framework's relevance and effectiveness. With active participation from STC Community Development members, the purposeful exchange of insights and perspectives added valuable dimensions to the document's evolution. This collaborative endeavour stands as a testament to our dedication to equip communities for a brighter future.

HRD CORP INITIATIVES

e-LATiH Corporate Access

IndSF Downloads

**Total Downloads As Of
July 2023**

39,167 

We're excited to provide you with the latest updates on our efforts to enhance accessibility and awareness of the Industry Skills Framework (IndSF) Document Downloads. As we closely monitor the download count of IndSF documents from the HRD Corp portal, we're pleased to share a significant accomplishment: a consistent surge of 3,854 downloads in July 2023, highlighting the growing recognition of IndSF's value in Malaysia's human capital development landscape. Notably, we've achieved a significant milestone by accumulating a total of 39,167 downloads in the year 2023 so far. Adding to our achievements, for July, we're delighted to introduce two new IndSF documents available for download on our portal: "IndSF Textile Manufacturing" and "IndSF Agriculture-Oil Palm Plantation". Our proactive engagement with industry players through webinars and workshops underscores our dedication to raising awareness about the pivotal role these documents play. Looking forward, our unwavering commitment to fostering collaboration and embracing innovation propels our roadmap to craft new IndSF documents in collaboration with diverse industries.
